

THE OPERATING CHALLENGE

The gaps between teams become business risk.

Demand without capacity

A promise reaches delivery before the right skills are available.

Delivery without context

Teams execute without a shared view of scope and commercial commitments.

Revenue without evidence

Approvals and exceptions delay a clear billing handoff.

START A FOCUSED CONVERSATION

Bring your next operating challenge.

Explore the workflow that matters to your business. Agree the modules, configuration and integration scope around your needs.

PROFESSIONAL SERVICES OPERATIONS

From people. To projects. To value.

Connect talent, capacity, delivery and financial context in one operating story.

PLAN WITH CONTEXT

DELIVER WITH CONFIDENCE

UNDERSTAND THE MARGIN

01 / PEOPLE & CAPACITY

Build the workforce the business needs.

Applicant Tracking System (ATS)

Connect requisitions, candidates, offers and joining readiness.

Human Resource Management (HRMS)

Support the employee lifecycle, service requests, skills, assets and performance.

Resource management

Match dated demand with skills, availability and deployment.

Vendor management

Coordinate external capacity and track vendor participation.

02 / DELIVERY & CONTROL

Turn commitments into coordinated delivery.

Professional Services Delivery

Plan work, govern delivery and understand the financial impact of every project and hour.

Time, leave & expense

Connect reported work, approvals, absence and expense context.

Invoicing & billing

Carry commercial terms and approved evidence into billing readiness.

03 / VISIBILITY & ACTION

Understand the value behind the work.

Revenue forecasting & leakage

Explain forecast assumptions and distinguish confirmed blockage from estimated exposure.

Analytics / Org 360

Give each leader the signals and evidence relevant to their decisions.

AI, automation & integration

Assist reviewers, connect handoffs and keep human accountability clear.
